

Manufactured using 3-D printing, the Dillon Rifle Company Hush Kit suppressors are made with patented Purposely Induced Porosity (PIP).

In simple terms, our design incorporates a number of very small vents positioned around the radius of the suppressor. This allows for more space to manipulate the gas flow before venting occurs. The result was a significant reduction of back pressure.

The suppressor has a monolithic structure which creates exceptional durability and thermal resistance. The Hush Kit's unique internal geometry further reduces high frequency noise, creating a more pleasant shooting experience.

One of our goals with Hush Kit was to reduce its overall length while still maximizing performance. By increasing the diameter by a small amount we were able to cut over an inch off the length.

The Hush Kit has a 'best in class' performance with improved sound reduction of between 5db-10db when compared to other industry leading suppressors.

Weight	.93lbs (15 oz)
Weight (with adapter)	1.05lbs (16.8oz)
Diameter	1.75 in 4.445 cm
Length	5.4 in 13.716 cm
Sound Reduction	-35.4dB(A)
Material	Inconel 718

Product Features:

- PIP Technology
- Hub Adapter
- 3D Printed Inconel 718

NOTE: Threaded adaptor is 1/2"-28 but is HUB compliant and can accept any HUB compliant adaptor. We do not currently offer other adaptors.

Geissele 10.3" Rifle (5.56 M855 ball)

Unsuppressed:

Muzzle: 168.8db
Shooters Ear: 159.1db

Dillon Rifle Co. Suppressor:

Muzzle: 133.4db (-35.4db)
Shooter's Ear: 137.4db (-21.7db)
