

Manufactured using 3-D printing, the Dillon Rifle Company Hush Kit suppressors are made with patented Purposely Induced Porosity (PIP).

In simple terms, our design incorporates a number of very small vents positioned around the radius of the suppressor. This allows for more space to manipulate the gas flow before venting occurs. The result was a significant reduction of back pressure.

The suppressor has a monolithic structure which creates exceptional durability and thermal resistance. The Hush Kit's unique internal geometry further reduces high frequency noise, creating a more pleasant shooting experience.

One of our goals with Hush Kit was to reduce its overall length while still maximizing performance. By increasing the diameter by a small amount we were able to cut over an inch off the length.

The Hush Kit has a 'best in class' performance with improved sound reduction when compared to other industry leading suppressors.

NOTE: Threaded adaptor is 5/8"-24 but is HUB compliant and can accept any HUB compliant adaptor. We do not currently offer other adaptors.

|------------------------------|--------------------------|
| Weight | 1.1 lbs (17.6 oz) |
| Weight (with adapter) | 1.3 lbs (20.8 oz) |
| Diameter | 1.75 in (4.445 cm) |
| Length (no adapter) | 6.5 in (16.51 cm) |
| Suppression Rating | 25.9 (overall composite) |
| Material | Inconel 718 |

Product Features:

- PIP Technology
- Hub Adapter
- 3D Printed Inconel 718
- Available in Black, Tan, Green, Grey & RAW
